

**SIGN UP TO SUPPORT  
CLEAN ENERGY AND SOLAR FOR SCHOOLS  
AND SAVE MONEY!!!**

By following the two simple steps below, you can actually save money and effectively provide Avon with points toward a free solar panel that will be installed on a school roof. The solar panels will be provided by the CT Clean Energy Fund. For every 100 points earned, Avon will qualify for a free (1 kW) solar array.

**1. Choose an Electric Generation Supplier**

Numerous Independent Companies

Fixed or Variable Rates

Save up to 2¢ per kWh

Go to:

[www.ctenergyinfo.com](http://www.ctenergyinfo.com), to choose an electric service provider. (CL&P or UI will still bill you.)

Savings from Generation Service charge (#1), will offset premium for clean energy (#2)

**2. Choose a Clean Energy Supplier**

A. [Community Energy](#)

B. [Sterling Planet](#)

Fixed Premium (~1.3¢ per kWh)

This message is part of the Avon Clean Energy Commission's (ACEC) campaign to promote clean energy and education for a sustainable future.
